Un rapport affiche ce qu'un rapport régulier d'échantillon d'huile montre : renseignements d'unité/composante, recommandations et résultats.

## Sample Details

Les utilisateurs peuvent envoyer le rapport par courriel ou l'afficher en format PDF.

Ppc Lubricants Inc - Cary Forgeron305

Status:  on 09/02/2011 Lube Service:

Unit ID : 4010  
Component: E

Reference No.: 4136841  
PO/Reference Number: 285483

Unit Manufacturer and Model: Caterpillar 972H  
Component Manufacturer and Model: Caterpillar C-13

Oil Type: CASTROL TECTION HD 15W40  
Serial Number:

Maintenance Recommendations for Lab No.: 3105300

Received Date: 09/29/2011

From: American Paving Corp.

Change oil and filters (if applicable), if not done at the time of sampling to reduce contamination and/or wear levels found in the oil. If applicable, perform on-line filtration if available. If C or D codes are present suggest monitoring unit and or resampling at one-half the normal service interval. Copper level elevated. Possible sources of wear (if applicable) could be wrist pins, bushings, bearings (near failure), cam bushings, oil cooler, valve train bushing, thrust washer, governor and or oil pump. --COMMENTS --
