

Labcheck Next Generation

Quick Start Guide

Management Reports

Management Reports

Depending on your role, Labcheck offers management reports shown in the table below:

Sample Frequency

Details the sample frequency established for all components

Samples Due

Details all samples due within a given date range

Condition Analysis

Details summary of severities (A,B,C & D codes) over a given time period (up to 12 months), and the details or common issues regarding what caused the abnormal and critical severities

Sample Turnaround

Summarizes sample transit times and lab turnaround times for a given time period (up to 12 months)

Sample Summary

Details the total number of samples run each month for all units/components over a given time period (up to 12 months) for a given customer/worksite

Summary of Conditions

Details the severity of each report run for all units/components over a 30-week period

Critical Condition

Details all critical samples over a given time period (up to 12 months)
